ABOUT US

Who we are

Founded in 2012 with the intention to cater to the surging demands of the packing industry- Euphoria Packaging LLP is regarded as one of the most rapidly expanding Manufacturers & Exporters of superior quality Courier Bags. Our inventory consists of an impressive array of customized products that include highly demanded Tamper Proof Bags, Courier Bags, Packaging Envelope, BOPP Tape, Bubble Envelope, Bubble Bags, Cash Bags, LDPE Reclosable Bags, Garment Bags, Pod Courier Bags, Plastic Bags, and countless others to choose from. As we're ushering in a bit of a new age here at Euphoria, we are extending our business activities by offering industry approved products that feature beneficial traits like eco-efficiency, cost-effectiveness, superior tear resistance, excellent adhesion on the closure, tamper-proof surface, and optimum opaqueness to sustain the secrecy of sensitive documents.

Our sole purpose is to ramp up our operational efficiency with a controlled expansion and therefore roll out next-generation freshly styled, sturdy, and aesthetically attractive products for our devoted clientele. By that means, we are leveraging the most advanced techniques from designing to manufacturing so as to suffice the challenging demands of our clients from courier, parcel/freight companies, banks, and commerce companies. We adhere to the regulatory standards for manufacturing packaging bags and exhibit complete devotion towards presenting a personalized product range with a choice of print, dimensions, and body colors along with unique sequential numbering and bar-coding. Furthermore, our company encourages every team member to develop a broader perspective, promotes innovation, and keeps the staff grounded in doing what's best for customers. Together we develop strategies that are directed towards expanding our commercial footprints at an international level, and we tend to achieve this by a collaborative approach towards a recognized vendor base that grants us the confidence to bring forth the best in class product range at an equitable price.

"Mr. Jatin Gupta" exudes an aura of zeal that inspires us to exhibit our diligence to earn the trust of distinguishable clientele. His motivation is the key to our rapid growth.

We have a well-thought-out in-house facility that assists us in converting films from granules to printing to bag manufacturing. In addition to this, we hold an in-house recycling system to minimize costs & efforts & converting waste into reusable material at once.

OUR VISION

As we're reaching almost a decade of excellence in the packing industry, it has always been our intention to exceed our clients' expectations with innovative and bespoke product lines. The foundations and goals of our business continue to be true to those established by our visionary founder, and his zeal for innovation continues to be our inspiration. Our passion and team-work culture will ensure that we deliver for our clients in safety, quality, and assurance – today and in the years to come.

Our vision is to make an impact in the packing industry with breakthrough product lines that suffice functionally and aesthetically. We strive to build opportunity, growth, and impact both domestically & globally. Our long-term strategy is to roll out best-in-class packing products with an innovative edge infused with modern technology. Together, we aim, and are working relentlessly, to shape the future of the packing industry.

OUR MISSION

QUALITY

Policy

QUALITY

“Our Satisfaction Depends On Customer Satisfaction”.

Our sole aim is to provide products that are consistent with the desired standards of our customers. In order to sustain customer satisfaction & reinforce our relationships, at every step, we assess whether the customer's requirements are met or not. The tiniest dissatisfaction is taken into consideration and reform procedures are carried out at the earliest. At Euphoria, decisions are made in accordance with the “participation” policy, meaning that the spirit of teamwork is promoted at the utmost levels. We ensure that every member is equipped with adequate knowledge and skills to undertake liability and responsibilities relevant to their position. A work environment wherein everyone embraces their own role with high regard and is happy about the tasks they carry out is targeted. In a nutshell, we make constant efforts to achieve better levels of effectiveness with every passing hour!

SUSTAINABILITY

We all know the world is at the center of a global climate crisis—one that is difficult to overlook. To avoid the worst-case scenarios, nations around the planet have devoted themselves to engineer and innovate systems that would minimize the effect on the environment.

Dealing with sustainability across all industries is a worldwide priority, and the packaging industry is no exception. We, as an ever-developing industry, are innovating & introducing products to dramatically reduce our environmental impact as broad adoption takes hold.

Additionally, Euphoria is driving new research within its premises to come up with products that reduce the overall carbon footprint. At every stage, the team strives to develop products that leave the least affect on the environment.

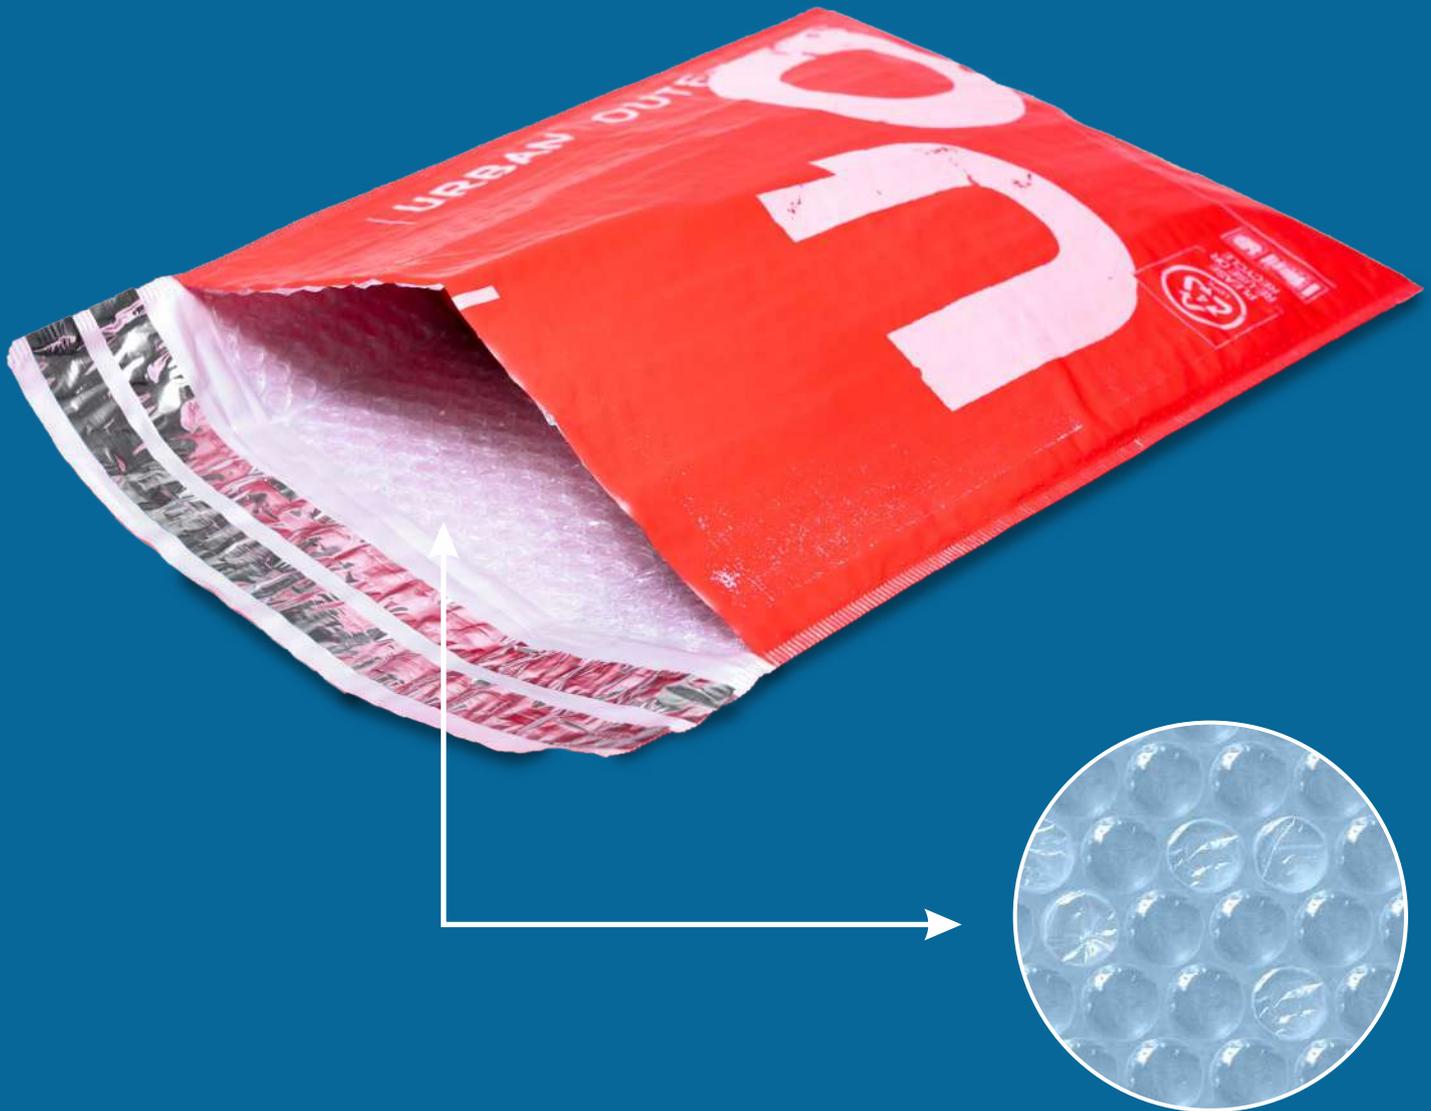

OUR PRODUCTS

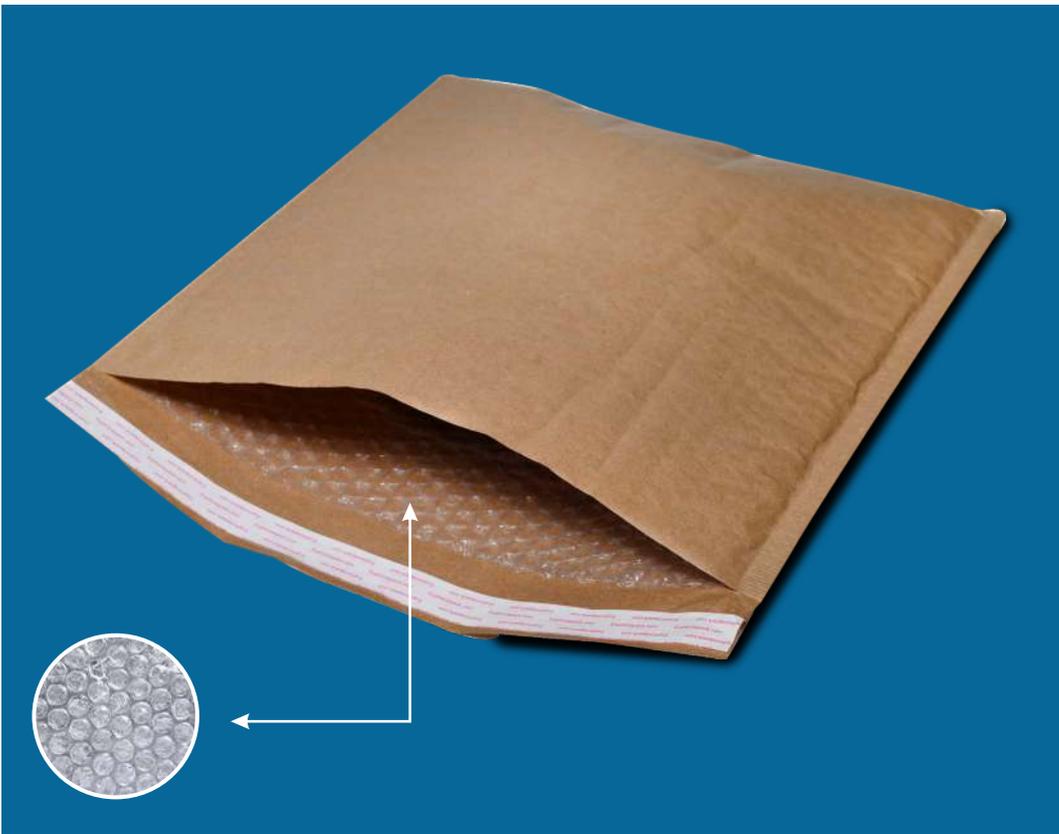

POLY BUBBLE MAILERS

Bubble padded mailers are specially made for fragile items. These are impressively designed with protection proven bubble cushion inside. The bubble lining provides cushioning to reduce shipping damage. Strong, lightweight, and spacious- these bags eliminate the worry of item damage during transits.

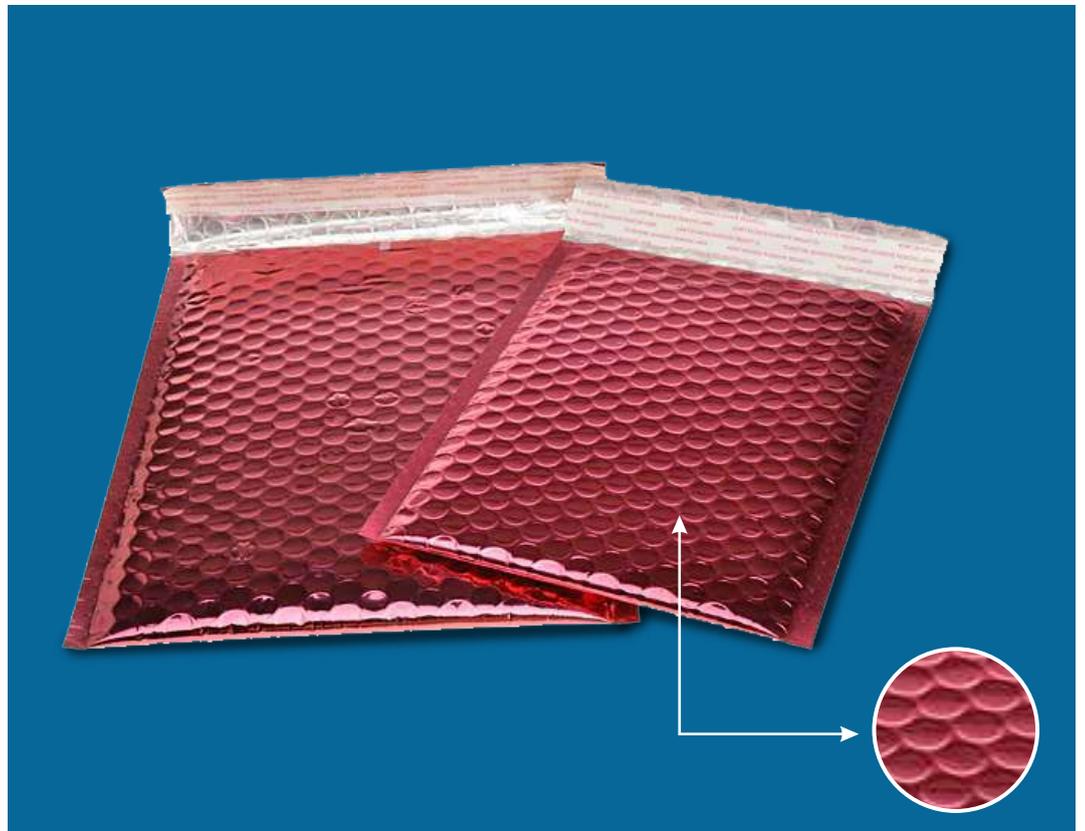

We have 3 variants in this category

Poly Bubble Mailers

Made from ultra-lightweight polyester coupled with our protection proved bubble cushion inside. 100% Recyclable and also attractive presentation.

Metallic Bubble Mailers

Available in vibrant colors and metallic finishes, these mailers provide great aesthetics while the bubble lining provides cushioned protection for the items. These Metallic Bubble Mailers can be used for temperature sensitive items.

SECURITY TAMPER EVIDENT BAGS

Made from Co-Extruded polythene Films which is black within and white outside or it may be clear, it comes with a hot softened adhesive strip for straightforward & permanent closure.

GOLD LOAN BAGS

DIAMOND LOGISTICS BAG

CONFIDENTIAL DOCUMENT BAG

Level 3

Comes with a special security seal with void letters that show evidence of tampering. It holds a special feature wherein If anyone tries to tamper, the letters "VOID" get transferred on the opposite facet. This clearly show that product has been tampered.

Level 4

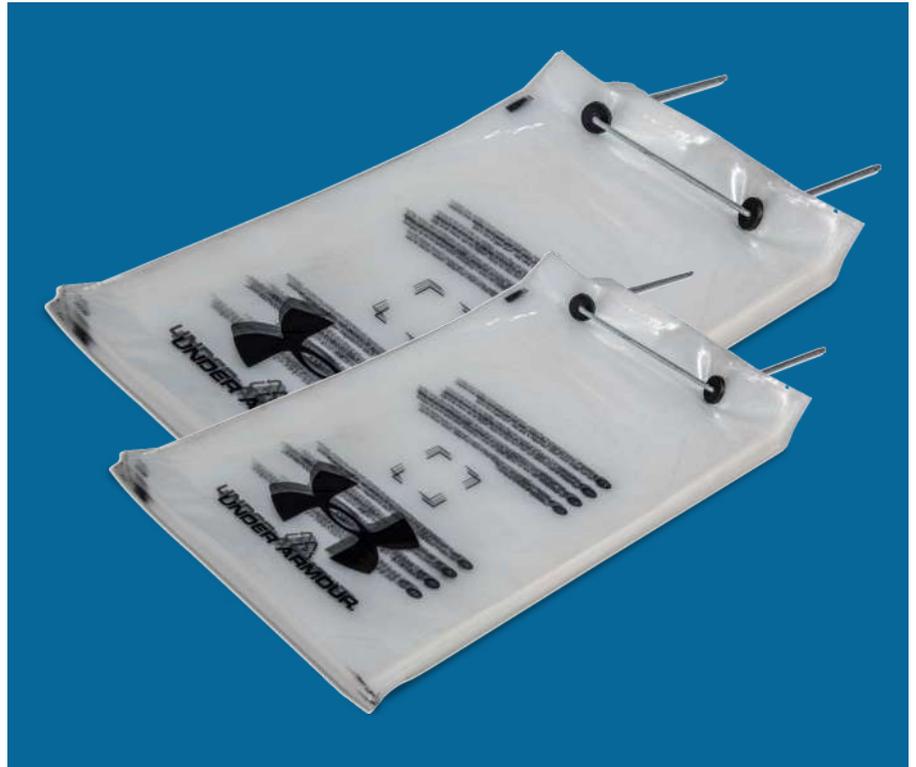

It has a special security seal that changes color upon temperature change which acts as proof of meddling. Once sealed, can not be opened, the sole way to open is to tear or cut the envelope. In addition to that, the seal also changes color upon heating or lowering the temperatures.

WICKET BAGS

Wicketed bags are stacked plastic bags that are held together on a thin metal bar (or wicket) that generates faster & easier dispensing. Ideal for packaging baked goods and much more.

Perforated Wicket Bags

These bags feature blocked perforations to achieve a clean tear when quickly removed from the wicket.

AGRICULTURAL BAGS

Made from high-quality material, these help in sustaining moisture for a long time that helps the seedlings in staying healthy. While being economical & convenient, these bags are an ideal growing option for modern nurseries.

COURIER POLY MAILER BAGS

Reusable

Made from a durable, co-extruded polyethylene film, these mailers are puncture, tear, and water-resistant. These consist of two adhesive strips - one for original shipment and the second fresh adhesive strip for the return. In short, this mailer can be used twice.

Euphoria has a high-tech in-house plastic waste recycling facility where 80% of waste content is recycled for reuse.
