

# Pre-opened Auto Bags

Pre Opened Auto Bags are for use on automated packing machines. Available in any customized sizes and designs! It can be customized [on rolls](#) or [fanfolded in a box](#).

- Each of these Pre-opened Auto Packaging Bags is made of 100% virgin Low Density Polyethylene (LDPE) resin that meets FDA/USDA specifications or with upto 50 % With Recycled LDPE granules. Can be heat sealed, tied, etc
- Made for use on automated packaging machines
- Available in clear,opaque or white front/clear back styles
- Available in 1.5, 2, 3 and 4 mil

Pre-Opened Bags come perforated on a roll with one side open for easy product inserting to run on manual or automatic bagging machines. We can also manufacture them to be fan-folded for your convenience. Bags on a Roll are also available without the pre-opened feature or an open slit in the front and a perforated back. All bags are heat sealable and feature a side weld and bottom seal construction.

## PRE-OPENED BAGS ON ROLLS

Pre Opened bags are designed to run on all automatic bagging machines that use Autobag style pre-opened bags on a roll.

## Pre-opened Auto Bags

1. They are perfect for bagger machines by Clamco Packaging, Autobag®, Automated Packaging Systems, and Sharp Packaging.
2. Each bag has an open end for easy insertion of the product, and a perforation between bags.
3. Bags are automatically drawn from the roll, after which they are filled, sealed and removed from the roll along the perforations.
4. We can print up to 6 colors on our clear pre-opened bags on a roll with Registered Printing
5. Pre Opened bags are typically made out of a specially-enhanced linear low density blend polyethylene. (LDPE)
6. Bag Width 2–19.5" & Bag Length 2–72"
7. Perforated bags allow easy access to the product by providing a convenient way to tear the bag open. Perforated bags are helpful when using heavy gauge bags and can be horizontal or vertical.
8. Venting: ¼" round, 1/8" round or butterfly
9. High-integrity side seals are 3/16" or 5 mm wide, creating a much stronger seal than a standard slit seal and also considered to be leak proof.
10. All bags come perforated on rolls with 3" cores and all rolls have 12" corrugated side discs.
